

## Risk Assessment Policy

### Risk Assessment

Risk assessments are carried out to ensure the safety of children, staff, parents and visitors. Legislation requires all individuals in the workplace to be responsible for the health and safety of premises, equipment and working practices. We have a 'corporate responsibility' towards a 'duty of care' for those who work in and receive a service from our provision. Individuals also have responsibility for ensuring their own and others safety.

- A generic risk assessment form is completed for each area of work, and the areas of the building that are identified in these procedures
- An access audit is completed to ensure inclusion and the health and safety of all visitors, staff, and children. The relevant procedure is modified if required to match the assessment.

Risk assessment means: *Taking note of aspects of your workplace and activities that could cause harm, either to yourself or to others, and deciding what needs to be done to prevent that harm, making sure this is adhered to and is updated when necessary.*

The law does not require that all risk be eliminated, but that 'reasonable precaution' is taken. This is particularly important when balancing the need for children to be able to take appropriate risks through physically challenging play. Children need the opportunity to work out what is not safe and what they should do when faced with a risk.

### Daily safety sweeps and checks indoors and outdoors

- Safety sweeps are conducted when setting up for the day prior to children arriving or closing in the evening. Sometimes a safety sweep will identify a risk that requires a formal risk assessment on form. For example, if a window latch is becoming stiff and an educator has to stand on a chair in order to reach it to ensure it has closed properly.

### Health and safety risk assessments

Health and safety risk assessments inform procedures. Staff and parents should be involved in reviewing risk assessments and procedures, as they are the ones with first-hand knowledge as to whether the control measures are effective and they can give an informed view to help update procedures accordingly.

The setting manager undertakes training and ensures staff have adequate training in health and safety matters. The setting managers also ensures that checks/work to premises are carried out and records are kept.
